

CERTIFICATE OF EXCELLENCE

APPLICATION OF n9 PURE SILVER TECHNOLOGY TO TEXTILES

This certifies that

Textured Jersey Lanka, Sri Lanka has successfully applied n9 pure silver technology in their facility.

Specifically they have:

- Run a commercial trial to apply n9 pure silver technology to textiles, following the application guidelines and procedures provided.
- Produced treated textiles which have the technology evenly applied, and which have been washed according to AATCC 61-1996 II-A.
- Generated textiles with an antimicrobial benefit which survives for more than 30 washes, measured via the standard method for non-leaching antimicrobial agents [ASTM E 2149-01 assessed on the substrate itself according to note 10]

Awarded by:

A handwritten signature in black ink, appearing to read 'S. Powell'.
